

DEVELOPMENT DIALOGUE BACHELORPROGRAMME IN HEALTH AND LIFE SCIENCES

To guarantee the quality of the programmes at VU University Amsterdam, the programmes are assessed once every six years by a panel of external experts. The final assessment of the programme is conducted by the Dutch Flemish Accreditation Organization (NVAO). In addition to the assessment, the panel of experts conducts a discussion with the programme in which possible developments and improvements are discussed.

The bachelorprogramme in Health and Life Sciences was reviewed at the end of 2017 and the final assessment is positive. During the development dialogue, the panel discussed with the programme the curriculum, the assessmentplan and the transition from the first to second year in the curriculum.
